Get ready to empower collaboration and achieve more productivity with Microsoft Teams

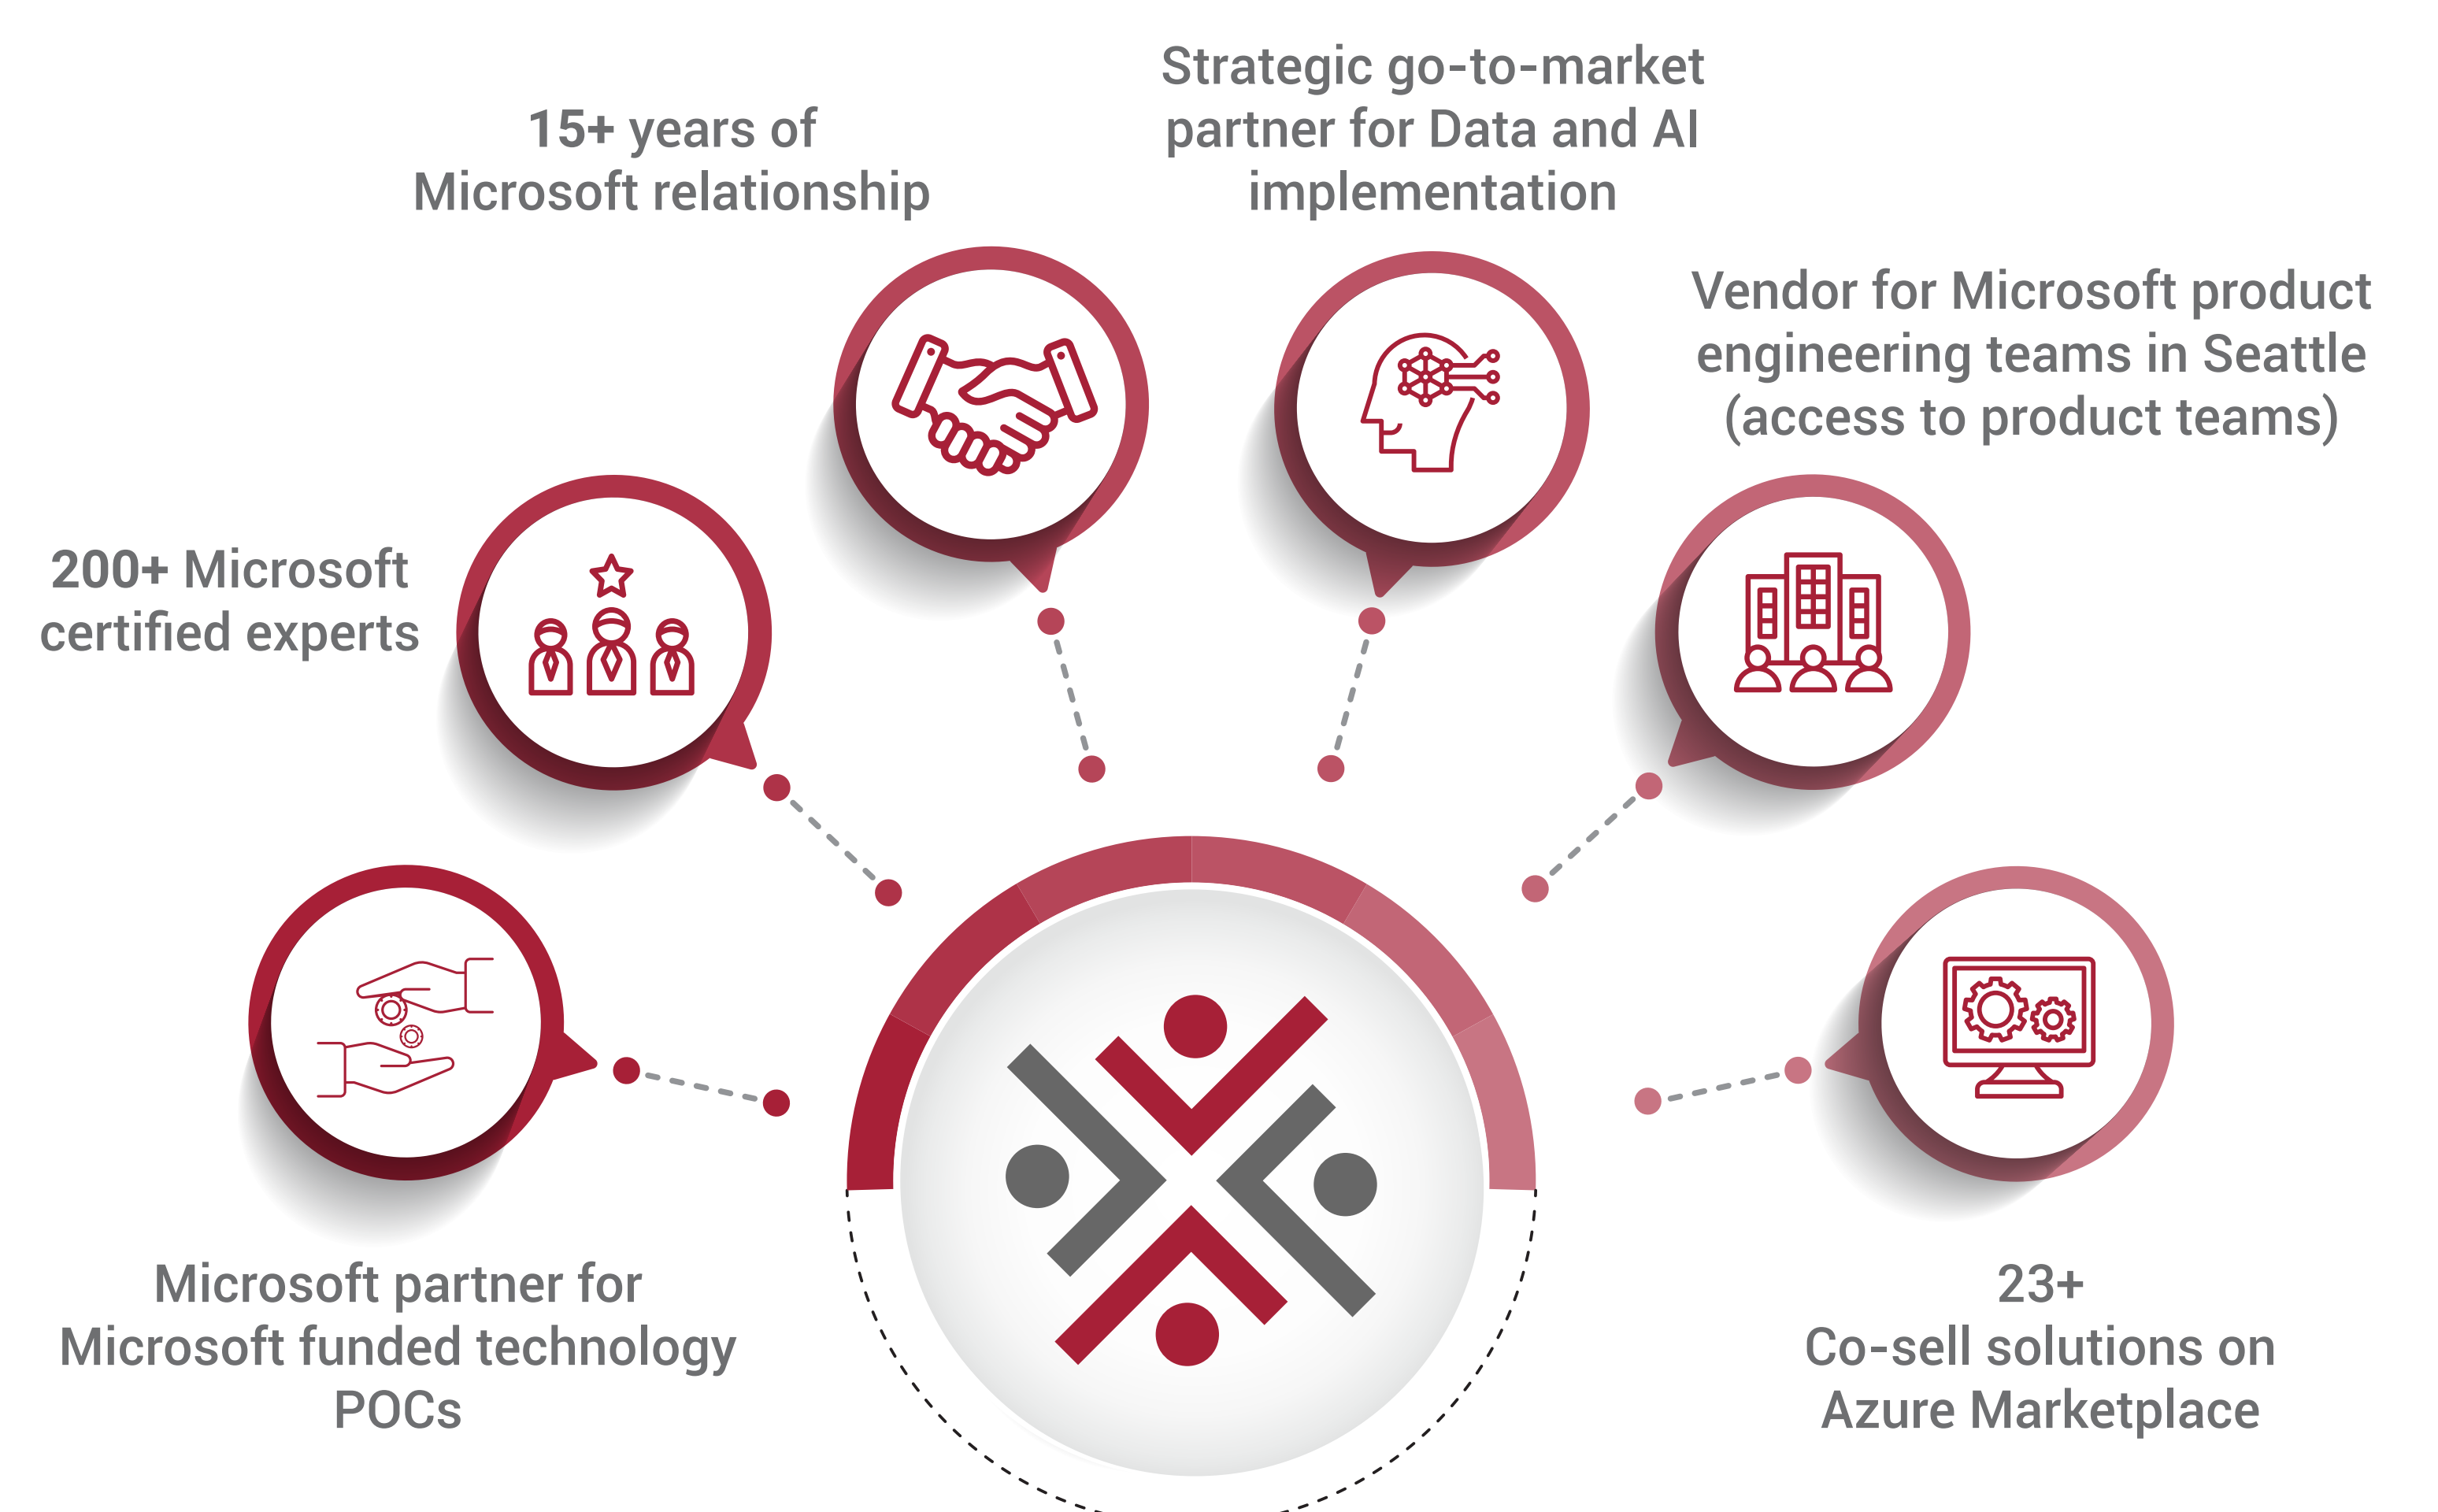

At **People Tech**, we have taken a big bet on Microsoft Teams and integrating other business apps on Teams. In addition, we are working with Microsoft leveraging funding options to implement solutions for our customers.

**People Tech's** business infrastructure management services are designed to meet unique industry demands and build a betting collaboration in the workplace.

**People Tech Group**: a **Microsoft Solutions Partner**, is a leading global professional service company with over 2000 professionals and industry specialists. With our team of Microsoft Certified Professionals, People Tech is committed to high business standards, and our partner.

## Our expertise & capabilities

- > **100+** trained Microsoft Specialists
- > Early adopters and a Microsoft go-to partner for validating new technologies
- > **People Tech** People Tech works directly with the Microsoft Product team to serve solutions like Microsoft teams O365 and others.
- > One of few select partners allowed to work on and conceptualize Business Apps on Teams–Doing extensive product testing
- > **Microsoft** chose us because of our deep knowledge of App innovation, data visualization & management space.
- > Deep domain expertise in integrating business apps on Microsoft Teams and developing collaboration between employees for more effective workplace management.
- > We have addressed significant product defects and have been instrumental in streamlining Microsoft Teams.

Integrate your Business Apps on Teams

## Who can attend

- > IT managers who seek to migrate their apps to Microsoft Teams
- > Information Managers, Product Owners, IT Team
- > Business users who are at a discovery stage to use Teams
- > Business users with want to understand the app migration to teams
- > Lead Engineers, Product Managers and VP or Director

## Why to leverage Microsoft Teams or your business apps

- > Discover quicker solutions through collaboration to empower and facilitate teamwork.
- > Build private channels that will be visible only to specified individuals.
- > Significantly reduce the risks linked to using shadow IT in your organization.
- > Microsoft Teams replace your business phone system with a managed, secure cloud service.
- > Office Suite & third-party apps in Microsoft Apps-source, and even build your app.
- > Deliver a high level of security & compliance with multi-factor authentication & access.

## Outcome of the workshop

- > Drive business results through scenarios for increased productivity
- > Accelerate outcomes with ready-to-use apps, plug-and-play accelerators, and solution options
- > Enable app governance through guidance on governing Teams apps using policies and controls
- > Employees will become more productive in Teams when connected with other data sources
- > Introduce new features and solutions to take advantage of existing Microsoft technologies
